## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 10/11/06 have been fully considered but they are not persuasive.

With respect to the applicant's argument that "O'Grady fails to disclose... deodorizing means located underneath the inlet in an essentially dry area, for deodorizing air underneath the inlet is the essentially dry area," the examiner disagrees because the disinfectant block (d) is of U-shaped as shown in Fig. 1, which has the majority portion underneath the inlet (about the top right arrow) in an essentially dry area (the portion above the top of pipe B would be dry). The O'Grady sewer trap is definitely capable of being used for a waterless or low-flush urinal as claimed, which is not even part of the claimed structures.

With respect to the applicant's argument that "Keller fails to disclose... deodorizing means located underneath the inlet in an essentially dry area, for deodorizing air underneath the inlet is the essentially dry area," the examiner disagrees because the inlet is the top upper edge of conical portion 29, the air portion within the conical portion 29 is essentially dry since any present liquid would push floater 33 down, which would allow the liquid to pass into the trap.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3751

3. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The added limitation in lines 5-6 of claim 1 appears to be grammatically incorrect which makes it unclear as to what exactly is being claimed

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 6-10 are rejected under 35 U.S.C. 102(b) as being anticipated by O'Grady as set forth in the previous office action.

5. Claims 1-5, 10, 11, 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Keller as set forth in the previous office action.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3751

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
